

Hundreds of kids who want to play baseball in the Philippines but do not have equipment

We use flipflops glued to cardboard for gloves instead of Soft Hands Gloves.

Pitching practice, look at the ball  
(click on the picture to start the video)

Either an old baseball wrapped in tape or an old t-shirt wrapped in tape (softer, but a bit uneven)

Instead of batting tees we use old tires and cut a small hole to hold the baseball steady.

To adjust the height, we just use a pail

# Batting drills with an actual tee and our improvised batting tee.

Instead of wiffle balls, we use old badminton shuttlecocks

For bats, we cut off broomsticks and place black electric tape for grips.

For our plyometric hurdles, we use garters and barbeque sticks

# Our improvised pitching chute using plastic bottles, and reconditioned catcher's gear
